Above class designed to help you prepare for upper-level Biology courses. Therefore, class time is used for collaborative, active, and inquiry-based activities meant to deepen your understanding of course topics and to provide practice in disciplinary thinking (e.g., visualizing biological processes, making predictions, drawing conclusions from data, and reading and analyzing scientific publications). Because students learn and retain information best when they are actively engaged during class, the structure of this course is flipped relative to that of a traditional classroom. There will be one, highly interactive, required class meeting per week. Before each class, you will view recorded lectures, read, and do textbook-related online activities. Your studies will be guided by a weekly question bank, and you will have opportunities to review assigned questions and other material with other students and with instructors before each week's two-hour, in-class session. Our weekly two-hour sessions will include whole-class discussions and smaller learning group activities. Three times during the semester, the in-class session will be used for exams.

X 70 : All choral ensembles meet daily from 2:30 to 3:50 pm, or 4:00-6:00 pm. Students enrolled in MUS-X 70 must keep all afternoons free during these designated time periods until receiving an ensemble assignment following choral auditions

Choral assignments for the entire school year are based on auditions held the week before classes in the fall semester. If you auditioned in August, you do not need to re-audition in January

For a complete list of choral ensembles, rehearsal dates, and times, please refer to the Choral Department website at <http://tinyurl.com/q9w6hxx>. This information is also posted outside MA052. There may not be openings in all ensembles in the spring semester if you did not audition in August
