This class will begin the week prior to the official start of classes for the Fall semester. In addition to attending this class once a week, participants will also be expected to observe 6 weeks of the associated undergraduate elementary methods courses (E 343 and E 328) and 2 weeks of the M 201 field experience. These observations will begin the 2nd week of classes and will end around IU's fall break. There are five sections of each class available to choose from each week. Some of these observation hours will count towards class contact time so the final meeting day for this class will be adjusted. Further information regarding the modified class schedule will be shared in the syllabus the first day of class.											
For science education doctoral students this course can count towards one of the two methods courses required for your program of studies.
