We apologize for this late notice about required materials for this class. Your instructor will be teaching via IU eTexts this coming term. That means you will NOT need to purchase materials on your own. The charge for the required materials will soon be posted as a Course Fee of $39.00 to your Bursar account and then added into your first bill for the term. The materials will be waiting for you before the first day of class in the Canvas class site. Your instructor will have more details about accessing the materials soon. Ideally, we would have preferred to have this notice posted in the Schedule of Classes and registration system, but some delays were beyond our control. Again, our apologies for this late notice. If you have any questions, please contact us at: ehouswor@indiana.edu (Professor Elizabeth Houwstrs)

COLL (CASE) Mathematical Modeling credit

We apologize for this late notice about required materials for this class. Your instructor will be teaching via IU eTexts this coming term. That means you will NOT need to purchase materials on your own. The charge for the required materials will be posted as a Course Fee of $39.00 to your Bursar account and then added into your first bill for the term. The materials will be waiting for you before the first day of class in the Canvas class site. Your instructor will have more details about accessing the materials soon. Ideally, we would have preferred to have this notice posted in the Schedule of Classes and registration system, but some delays were beyond our control. Again, our apologies for this late notice. If you have any questions, please contact your instructor: ehouwsor@indiana.edu (Professor Elizabeth Housworth).

This class is taken entirely online. Students view lectures, complete quizzes and homework, attend meetings, and take exams online. For questions, contact Professor Housworth (ehouswor@indiana.edu).

This class requires a Mathematics Materials Fee. Current rates are available at http://go.iu.edu/BLfees.

Translating to online instruction is NOT learning to teach all over again; participants will find they possess a wealth of expertise that can be readily adapted in online teaching. Drawing on their expertise and experiences, teachers in this course will explore current expectations about online learning and develop strategies and lesson plans to foster high-quality online learning experiences for students and teachers alike. Participants will experience and build immediately-implementable course plans and lessons that facilitate relationship building, meet curricular goals, and are pedagogically sound.

The Federal Policymaking & Special Education short course is intended to provide graduate students with an introduction to becoming effective leaders in education through participation in the public policy making process. In this course, participants will be provided the opportunity to learn and practice the skills needed to be an effective advocate for K-12 students with disabilities and preservice teachers.
Public policy impacts the field of education immensely, and graduate students must be prepared to become active participants in the process by utilizing their research and practical experience to advocate on behalf of students with disabilities, their families, and preservice teachers.
Through meetings with federal level policymakers, self-advocates, and national organization members, the participants will be engaged in dialogue about key education issues and be provided with the opportunity to find their place within the policymaking process.
