Though a faculty member will be engaged as your instructor, online courses require students to be especially conscientious and responsible about completing assignments and staying on track.

Online courses are not easier than residential courses and require just as much time and effort from students.

Students must have a computer with a working microphone and webcam. A private location and reliable internet connection with a broadband speed of at least 5 mbps is required for quizzes and exams.

- **Course Code**: EDUC-N 103
- **Title**: TEACH & LEARN ELEM MATH I
- **Credits**: 3
- **Description**: This course is designed for students who are preparing to teach elementary mathematics. It covers various topics including number sense, operations with numbers, algebraic thinking, geometry, measurement, and data analysis. The course emphasizes the development of problem-solving skills and the use of manipulatives to enhance student understanding.

**SCIENCE FOR ELEMENTARY TEACHER (011)**

**EDUC-N 200 INTRO TO SCIENTIFIC INQUIRY (3 CR)**

- **Course Code**: EDUC-N 200
- **Title**: SCIENCE FOR ELEMENTARY TEACHER
- **Credits**: 3
- **Description**: This course introduces students to the scientific process and its application in elementary education. It covers topics such as the nature of science, scientific inquiry, and the integration of science into the elementary curriculum. Students will engage in hands-on activities and learn how to incorporate scientific concepts into their teaching.

---

**Student Information and Requirements**

- **Course Access**: Students must have access to the course materials and resources provided by the instructor.
- **Feedback**: Students are encouraged to provide feedback on the course content and delivery.
- **Instructor Contact**: For any questions or concerns, students should contact the instructor via email or during office hours.

---

**Course Schedule**

- **Meeting Times and Locations**
- **Grading**: The course will be graded on a standard letter grade scale.

---

**Course Policies**

- **Attendance**: Regular attendance is required to maintain a passing grade.
- **Assignments**: All assignments must be submitted on time.
- **Exams**: Exams will be conducted in a proctored environment.

---

**Course Materials**

- **Textbooks**: The primary textbook for the course is *Elementary Mathematics for Teachers* by Thomas Koshy. Additional readings may be provided by the instructor.
- **Supplementary Materials**: Online resources such as videos, articles, and interactive activities will be provided to enhance learning.

---

**Course Objectives**

- **Objective 1**: Students will develop a deep understanding of elementary mathematics.
- **Objective 2**: Students will learn to apply problem-solving strategies in various mathematical contexts.
- **Objective 3**: Students will be able to design lesson plans that integrate science into the elementary curriculum.

---

**Course Assessment**

- **Assessment Methods**: The course will be assessed through a combination of assignments, exams, and projects.
- **Grading Criteria**: Grades will be determined based on participation, understanding of course material, and ability to apply scientific concepts in lesson planning.

In this course, students will begin to explore the personal, institutional, political, and cultural forces that impact the lived experience of being a professional teacher. Possible key questions for reflection include: How does self-knowledge help teachers positively shape their professional lives? How does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? How does the current emphasis on standardized testing impact the life of a teacher and how can teachers positively respond to this? What does it mean to be a role model and what are the challenges and opportunities presented by this role? What does community mean and how are teachers participating in and facilitators of positive community? Exploration of these questions will occur through student centered, hands-on, and interactive classroom activities

An introduction to college life and culture. This course includes guest lectures, campus tours, in-class discussions, and strategies for organization and study skills. You'll get involved on campus, visit with professors as well as academic and career advisors and, best of all, there will be many opportunities for multicultural dialogue and forming friendships in a small group. It's all the stuff you want to know about and do, inside and outside of the classroom, except with this class you get credit for it.

F 450: Students in the above class should be aware that a flexible schedule is required when scheduling coachings with their faculty coach. Students must attend the Chamber Music course meeting held in the first week of classes to find out important information regarding group sign-up and placement auditions. Time and location of the meetings will be announced to enrolled students and will be posted on the chamber music website at HTTP://TINYURL.COM/NOWROM. All members of the group must be enrolled in MUS-F 450 or F 550, unless making up an incomplete. Students must obtain the permission and signature of a faculty coach for their group and receive seven coachings, performing at least once in a public setting. Groups that are unable to find a chamber coach will be assigned to a faculty member by the Head of Chamber Music. Visit the above chamber music website for further details on guidelines and required paperwork or email chmusic@indiana.edu with questions.
