This course is designed to be blended/flipped format relative to a traditional class. Students are expected to invest time outside of class to complete all of the recorded lecture videos, textbook and other assigned readings lecture quizzes and weekly assignments. Class time is used in a variety of ways including "bench to bedside" lectures, practice in inquiry based activities, but are NOT substitutes for out of class reading. There is an increased emphasis on learning how to read scientific literature, communicate science for a general audience through creative assignment, technical writing and designing and interpreting experiments

#BlackLivesMatter and how we talk about this issue matters, too. Abusive language in social media is a serious issue, and because so many posts are made every day, we cannot remove abusive posts by hand their removal must be automated. How does automatic detection work? We will discuss what abusive language is and consider how it differs based on the group it addresses (e.g. sexism, racism). Then we'll learn about automatic approaches to language analysis (i.e. what is behind Siri or Alexa), and how they are used for finding abusive language automatically. We will learn just a bit of programming. By the end of the course, you will develop, experiment with, and assess your own method for automatic detection of abusive posts. Basic familiarity with computers is assumed, but no experience with programming, machine learning, or computational linguistics is required.

23130 ARR ARR WB WEB Allen C

Above class meets first eight weeks only

In this course, students will begin to explore the personal, institutional, political, and cultural forces that impact the lived experience of being a professional teacher. Possible key questions for reflection include: How does self-knowledge help teachers positively shape their professional lives? How does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? How does the current emphasis on standardized testing impact the life of a teacher and how can teachers positively respond to this? What does it mean to be a role model and what are the challenges and opportunities presented by this social role? What does community mean and how are teachers participants in and facilitators of positive community? Exploration of these questions will occur through student centered, hands-on, and interactive classroom activities

Open to all students					

Will you be navigating IU's beautiful campus pretty much for the first time this Fall? Wondering how help resources will work now - and how to feel more comfortable using them? Seeking to expand your college experience beyond Canvas and Zoom meetings? Building those personal connections is the central focus of this course! We'll take trips and invite guests to discover all the amazing opportunities here, help you figure out fun and useful ways to get involved in campus life, and share our experiences with each other in a warm, supportive environment. Best of all, there will be many opportunities for multicultural dialogue and forming friendships in a small group. It's all the stuff you want to know about IU, inside and outside of the classroom, except with this class you get credit for it!

Questions? Please email Anthony Guest-Scott - aguestsc@iu.edu.
