The structure of the above class is blended/blipped relative that of a traditional class. Students are expected to invest time during the week watching videos (~ 2-3 hours), completing the assigned readings, starting to learn new vocabulary and complete pre-class assignments (~2 -3 hours) before coming to class. Submissions that will be required at regular intervals during the week (example Monday lecture assignment; Wednesday Lecture assignment) before class meets on Friday. Seek out assistance immediately when you need it during the week. Friday classes are active learning classes where students will engage in collaborative, active, and inquiry-based activities. These are designed to deepen understanding of course topics, practice disciplinary thinking and apply the material of the week to real world scenarios (drug design, scientific methods, and experimental strategies). Students are expected to come to class prepared and ready to engage with their teams. We will assume that you have read the material before class.

All exams and quizzes will be administered during the discussion section. Students must register for one of the 2 discussion options

CHEM-C 100 THE WORLD OF CHEMISTRY (3 CR)

**CHEM-C 100 COURSE INFORMATION**

CHEM-C 100 is a 3-credit course focusing on the fundamentals of general chemistry. The course is designed for students who have completed a year of high school chemistry or an equivalent course. It covers topics such as atomic structure, bonding, reaction rates, and equilibrium. The course meets the first eight weeks only, with the second eight weeks only, or both terms, depending on the student's schedule.

**Course Requirements**

- **Course Work:** The course includes lectures, discussions, and laboratory sessions.
- **Assignments:** Assignments include problem sets, quizzes, and exams.
- **Exams:** There are two midterms and a final exam. The final exam is scheduled for February 3, 2022.
- **Materials:** Students are required to wear approved chemistry and splash protective goggles.
- **Schedule:** The course meets Monday, Wednesday, and Friday from 10:10 AM to 11:00 AM in CH 041.

**Instructor:** K. O'Keefe

**Course Website:** [https://covid.iu.edu/learning-modes/index.html](https://covid.iu.edu/learning-modes/index.html)

VT: BRAND MANAGEMENT PRACTICUM

- **12359 PERM** 04:05P-06:00P MW HH 142 King K

This practicum is geared toward students interested in a career in brand management or as a creative service provider for brands. The course offers students the opportunity to work on a real brand (preferably national) with teammates who offer a variety of expertise including strategy, marketing, media. Students from Kelley School of Business, The Media School, and the Eskenazi School of Art, Architecture + Design are encouraged to enroll. This team composition mimics what students will experience in their future jobs and hence prepares them to see a business problem through a different lens and appreciate the diversity of views. This course provides students a unique learning experience of applying the synergy of different talents, knowledge, skills, and perspectives to create effective strategies, tactics, and deliverables for a brand that can be implemented in the real world.

Mapping Your Future: How to Make the Most Out of Your College Experience is an eight-week, two credit, graded seminar course designed for students to investigate the purposes of an undergraduate education at IU Bloomington and to expose them to the array of skills, tools, and opportunities that academic advisors, career coaches, and the university have to offer. The assignments and activities in the course include a mixture of readings, class discussions, journaling, out-of-class-activities, and a culminating semester project. By the end of the course, students should have a better understanding of themselves, their academic and career interests, and a plan to maximize their opportunities as an IU Bloomington student.

- Above class open to graduates only.
- Above class requires permission of instructor.
- Above class meets In Person. For more information visit https://covid.iu.edu/learning-modes/index.html.
Choral assignments for the entire school year are based on auditions. Students do not need a musical background to be in this class. After initial units on world music and elements of music, the course flows from the Middle Ages to contemporary times. Students will go behind the scenes of an opera and a ballet.

SPEA-V 458 ETHICS & MORALITY PUB AFFRS
33665 RSTR 02:00P-04:00P TR PV 278 Aron A
TOPIC: Ethics and Morality in Public Affairs
Description: This course will examine the normative concerns that drive politics and public policy. These concerns tend to fall under the heading of "morals", which are difficult to measure and therefore given short shrift by social scientists. Recent investigations, however, suggest that the normative motivations driving human behavior and policy are well within the realm of empirical research, and from life being metaphysical, are entirely natural and open to scientific scrutiny. (But don't fret! There remains ample room for mystical, transcendental, and metaphysical approaches to these questions.) Special attention will be paid to two key concepts: justice and deservingness.
TOPIC: Ethics in the Media and Communication
Description: This course provides an introduction to the principles of effective data analysis and visualization.
TOPIC: Disease outbreak investigations
Description: This course will examine the partnership between non-governmental organizations, municipal, state, and federal governments in the context of recent outbreaks and deadly disease outbreak investigations. No prerequisites are required. The target audience is public management or healthcare undergraduate and graduate students with an interest in intergovernmental relations or outbreak investigations.

Description: In Startup Bootcamp, you will learn strategies to take your idea and turn it into a business venture. You will learn the critical skills necessary to code, build a product or service, and attract investors. You will also learn how to create a budget and evaluate your business opportunity, engage the market for validation, build a business model, and build a pitch deck so you can attract potential investors. Come with your own business idea or vision to build a new solution based on provided problem statements.
