Biology (BIOL)

BIOL-T 592 SOCIAL IMPLICATIONS OF BIOLOGY (3 CR)
12744 901 ARR ARR ARR OL ONLINE Olivery H

This is a 100% online class taught by IU Northwest. No on-campus class meetings are required. Distance education fee will apply; check your campus bursar website for more information. Textbooks, purchase may be made through your home campus bookstore.

This course is for ACP dual credit teachers.

BIOL-L 113 BIOLOGY LABORATORY (3 CR)
5193 6W1 ARR ARR ARR ARR ARR ARR Whitworth K

L 113 : P or concurrent: BIOL-L 112
L 113 : Recommended Prerequisite - BIOL-L 111

Above course is 100% online. Additional assignments will be delivered online, asynchronously. Students will not be required to log in on specific days or at specific times, but several assignments must be completed online each week. Additional assignments may be made through your home campus bookstore.

Above class designed to help you prepare for upper-level Biology courses. Therefore, class time is used for collaborative, active, and inquiry-based activities meant to deepen your understanding of course topics and to provide practice in disciplinary thinking (e.g., visualizing biological processes, making predictions, drawing conclusions from data, and reading and analyzing scientific publications). Because students learn and retain information best when they are actively engaged during class, the structure of this course is flipped relative to that of a traditional classroom. There will be two, highly interactive, required class meetings per week. Before each class, you will view recorded lectures, participate in Canvas discussion board, read textbook and complete textbook-related online activities. Your out-of-class studies will be guided by video outlines and/or question banks. Our weekly three-hour sessions will include individual quizzes, team-based quizzes, team-based activities, and whole-class discussions.

Above class meets online and on campus.

Above class meets 100% Online with a combination of Synchronous and Asynchronous instruction. For more information visit https://covid.iu.edu/learning-modes/index.html

Above class designed to help you prepare for upper-level Biology courses. Therefore, class time is used for collaborative, active, and inquiry-based activities meant to deepen your understanding of course topics and to provide practice in disciplinary thinking (e.g., visualizing biological processes, making predictions, drawing conclusions from data, and reading and analyzing scientific publications). Because students learn and retain information best when they are actively engaged during class, the structure of this course is flipped relative to that of a traditional classroom. There will be two, highly interactive, required class meetings per week. Before each class, you will view recorded lectures, participate in Canvas discussion board, read textbook and complete textbook-related online activities. Your out-of-class studies will be guided by video outlines and/or question banks. Our weekly three-hour sessions will include individual quizzes, team-based quizzes, team-based activities, and whole-class discussions.

Above class meets online and on campus.

Above class meets 100% Online with a combination of Synchronous and Asynchronous instruction. For more information visit https://covid.iu.edu/learning-modes/index.html

Above class requires permission of Department

This is an intensive, accelerated class offered by the IU Language Workshop. Additional fees apply. Only students admitted to the Workshop may register for this course. Get details and apply for Workshop admission at (http://languageworkshop.indiana.edu). Contact the Workshop at: languageworkshop@indiana.edu.

To maximize learning, Workshop participants immerse themselves in Chinese language and culture: living, working, and eating with fellow students and faculty on the Chinese floor of the residence hall and by signing an immersion contract to speak only Chinese for the duration of the program. You will be challenged, perhaps more than you anticipate, but those students who adhere to the pledge and maintain immersion make measurably more progress in Chinese than students who do not. Immerses yourself in Chinese this summer and see how much you can do!

To maximize learning, Workshop participants immerse themselves in Arabic language and culture; living, working, and eating with fellow students and faculty on the Arabic floor of the residence hall and by signing an immersion contract to speak only Arabic for the duration of the program. You will be challenged, perhaps more than you anticipate, but those students who adhere to the pledge and maintain immersion make measurably more progress in Arabic than students who do not. Immerse yourself in Arabic this summer and see how much you can do!

For more information on this course, please contact the Summer Language Workshop at http://languageworkshop.indiana.edu

Above class requires permission of Department
Online placement exam required before enrollment for all students (including IU students).
To maximize learning, Workshop participants immerse themselves in Arabic language and culture; living, working, and eating with fellow students and faculty on the Arabic floor of the residence hall and by signing an immersion contract to speak only Arabic for the duration of the program. You will be challenged, perhaps more than you anticipate, but those students who adhere to the pledge and maintain immersion make measurably more progress in Arabic than students who do not. Immerse yourself in Arabic this summer and see how much you can do!
For more information on this course, please contact the Summer Language Workshop at http://languageworkshop.indiana.edu
Above class meets In Person. For more information visit https://covid.iu.edu/learning-modes/index.html

PROFESSIONAL DEVELOPMENT (442)
EDUC-F 203 TOP EXPLORATION IN EDUCATION (1 CR)
14309 6W2 ARR ARB WEB Allen C
In this course, students will begin to explore the personal,
institutional, political, and cultural forces that impact the
lived experience of being a professional teacher. Possible key
questions for reflection include: How does self-knowledge
help teachers positively shape their professional
lives? How does school culture shape the day-to-day life of
teachers and how do you identify a school culture that is right
for you? How does the current emphasis on standardized testing
impact the life of a teacher and how can teachers positively respond
to this? What does it mean to be a role model and what are the
challenges and opportunities presented by this social role?
What does community mean and how are teachers participants
in and facilitators of positive community? Above class meets 100% Online through
Asynchronous instruction. For more information visit
https://covid.iu.edu/learning-modes/index.html
This class requires a Dist Ed Learning Ctr Fee/Educ. Current
rates are available at http://go.iu.edu/BLfees

This course if a part of the Maternal and Child Health Fellowship Program. The Maternal and Child Health (MCH) Fellowship program in the Department of Applied Health Science aims to promote graduate MCH training by supporting students who wish to pursue a career in maternal and child health. Fellows receive a $5,000 award as partial tuition for an MCH course. To qualify for a Summer 2022 Fellowship, applicants must: Be a graduate student at Indiana University. Take one MCH course during the summer. Join and participate in the Maternal and Child Health Club. Submit a personal statement describing career goals and how participation in the MCH program will help you attain them. Send your Statement to Dr. Cecilia Obeng at cobeng@indiana.edu and Dr. Jon Macy at jmacy@indiana.edu by Monday, May 3, 2022. Award decision will be communicated to applicants by May 8, 2022.

This is an O'Neill International course adapted to be offered in an online format. Students should be able to attend synchronous classes for the three weeks of the course. Synchronous class sessions will run from 9am-11am or 10am-12pm every weekday of the three week course. This course is taught in conjunction with the University of Augsburg (Germany) and participants will be in class with students from this university. This course is based around a required group project that spans the duration of the course, with a final deadline roughly a month after the last synchronous class session. Students will form groups with Augsburg students in order to complete this research project. Please be certain of your ability to fulfill all of the above conditions for the course before enrolling.
