Above class designed to help you prepare for upper-level
Biology courses. Therefore, class time is used for
collaborative, active, and inquiry-based activities meant to
deepen your understanding of course topics and to provide
practice in disciplinary thinking (e.g., visualizing
biological processes, making predictions, drawing conclusions
from data, and reading and analyzing scientific
publications). Because students learn and retain information
best when they are actively engaged during class, the
structure of this course is flipped relative to that of a
traditional classroom. There will be two, highly interactive,
required class meetings per week. Before each class, you will
view recorded lectures, participate on Canvas discussion
board, read textbook and complete textbook-related online
activities. Your out-of-class studies will be guided by video
outlines and/or question banks. Our weekly three-hour
sessions will include individual quizzes, team-based quizzes,
team-based activities, and whole-class discussions

COLL (CASE) N&M Breadth of Inquiry credit
The structure of the class is a mixture of asynchronous
course material and a 1-hour online synchronous meeting each
week. Students are expected to invest time during the week
watching lecture videos [- 4-5 hours], completing the
assigned readings, and completing any quizzes or assignments.
Remember that this is a 6-week condensed course - submissions
will be required at regular intervals (for example, a
Wednesday quiz). Monday classes are active learning classes
where students will engage in collaborative, active, and
inquiry-based activities to review the previous week's
lecture material. Students are expected to come to class
prepared and ready to engage - we will assume that you have
read and/or viewed the material before class.

TOPIC: Strategic Management in an International Context
 Above class is part of the Study Abroad Program - O'Neill in Bavaria and Berlin
 Above class meets June 4 - June 25
 Above class meets with SPEA-V 482
 This is an O'Neill International course adapted to be offered in an online format. Students should be able to attend synchronous classes for the three weeks of the course. Synchronous class sessions will run from 9am-11am or 10am-12pm every week day of the three week course. This course is taught in conjunction with the University of Augsburg (Germany) and participants will be in class with students from this university. This course is based around a required group project that spans the duration of the course, with a final deadline roughly a month after the last synchronous class session. Students will form groups with Augsburg students in order to complete this research project. Please be certain of your ability to fulfill all of the above conditions for the course before enrolling.
