The first course meeting will be taught online synchronously.
See the course's CANVAS page and syllabus for more details.

PSY-X 476 PRACTICUM IN PSYCHOLOGY (3 CR)
VT: CENTERSTONE RESEARCH INSTITUTE

8524 PERM ARR ARR ARR
TOPIC: Centerstone Research Institute
Students may be required to participate in on-site training, undergo TB or similar test, and/or consent to a background check. Students are responsible for providing their own transportation to and from the site.
Students who take PSY-P 483 Clinical Supervision before or concurrently receive preferential placement (i.e., are more likely to be granted permission) to PSY-X 476.
Not an Advanced Psychology class for purposes of fulfilling major requirements. Above class does not fulfill any Psychology major requirements.
                                                                                                                                                                                                                                                                                                                       Student must be pursuing the major or certificate in Clinical
                                                                                                                                                                                                                                                                                                                     Student must be pursuing the major or certificate in Clinical Psychology Science.
For students planning to enroll in X476 Practicum in Psychology, this course should be taken before or concurrently with their practicum experience.
This course is specifically designed for students interested in completing clinically related practicum, internship, or research experiences during their undergraduate tenure OR students interested in a career related to the treatment or assessment of mental health conditions.
Students pursuing the major or certificate in Clinical Psychology Science who have successfully completed P318 do NOT need to request permission.
                                                                                                                                                                                                              Schiestl E
```

148 College of Arts and Sciences & University Graduate School If you are NOT pursuing the Clinical Psychology Science major or certificate OR have not successfully completed P318, email psyneuro@indiana.edu for permission to add this course. You will receive permission if you meet one of these criteria: 1) you have been accepted into PSY-X476 during the semester you intended to register for the course, (OR) 2) you have spoken with the instructor and received permission.

Above class reserved for Clinical Psychology Science majors and certificate students

Students are strongly discouraged in taking HISP-S 308 after having taken a HISP 400-level Spanish class.
If you are a heritage speaker, meaning you grew up with Spanish being spoken in your home or community, you should be taking HISP-S 309 not HISP-S 308 HISP-S 309 Spanish Writing for Heritage Speakers course counts the same as the HSIP-S 308 class. HISP-S 309 would replace HISP-S 308 as an elective as part of your Spanish Minor and Major requirements.

VT: SELF-CARE FOR NEW TEACHERS
5828 11:30A-01:10P R ED Levell T

Above class is part of the School of Education's Professional Distinction Series

Using the tools of neuroscience, awareness, and emotional intelligence, this course provides evidence-based practices for beginning teachers growth and development. This course is a rich, intense and highly interactive experience. It makes deep and complex concepts highly practical and accessible.

And the course emphasizes application to each participants real personal and professional challenges

Above class meets first eight weeks only

EDUC-F 203 TOP EXPLORATION IN EDUCATION (1 CR)

VT: MIND-BODY SKILLS GROUP 14469 06:20P-07:50P ED 3125 McCord E TOPIC: Mind-Body Skills Group

In a highly interactive, small-group setting, explore and practice evidence-based mind-body techniques useful for intentionally connecting with your mind and body; regulating your autonomic nervous system(responsible for the "fight of flight" response); and tapping into your internal wisdom. Skills we will explore include: meditation (concentrative, expressive, and mindfulness), visualization, imagery, body scans, and more. No experience with the use of these skills is necessary. Come as you are, ready to learn about how these skills can be a valuable component of your personal wellness

Allen C

skills can be a valuable component of your personal wellness and self-care hygiene routine.

In this course, students will begin to explore the personal

Distinction Series
In this course, students will begin to explore the personal, institutional, political, and cultural forces that impact the lived experience of being a professional teacher. Possible key questions for reflection include: How does self-knowledge help teachers positively shape their professional lives? How does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? How does the current emphasis on standardized testing impact the life of a teacher and how can teachers positively respond to this? What does it mean to be a role model and what are the challenges and opportunities presented by this social role? What does community mean and how are teachers participants in and facilitators of positive community? Exploration of these questions will occur through student centered hands-on, and interactive classroom activities. centered, hands-on, and interactive classroom activities There is a required fee for enrollment in this class: Online Grad Learning Center Fee - Education.
