This course serves as a basic introduction to applied R programming. The course will cover data structures (e.g., matrices, data frames, lists), basic principles of programming (e.g., control structures like for and if), data analysis (e.g., descriptive statistics, correlations, t-tests), and basic visualization. All needed software can be downloaded for free and does not require any paid subscription. No previous knowledge of R is needed. The final exam will consist of a project. The class meets 100% Online through Synchronous instruction. Please do not consider the through Synchronous instruction. Please do not consider the course description below as it is not up to date.

This course serves as a basic introduction to applied R programming. The course will cover data structures (e.g., matrices, data frames, lists), basic principles of programming (e.g., control structures like for and if), data analysis (e.g., descriptive statistics, correlations, t-tests), and basic visualization. All needed software can be downloaded for free and does not require any paid subscription. No previous knowledge of R is needed. The final exam will consist of a project. The class meets 100% Online

exam will consist of a project. The o through Synchronous instruction. P

INTRO TO MEDICINE: This course will provide an overview of the medical field (knowledge and skill requirements), as well as information on prerequisites and applying to medical school. In addition, it will introduce concepts from medical ethics, emotional intelligence, diversity equity and inclusion, as well as financial considerations to orientate students towards developing competencies in domains required

for effective patient care.

TOPIC: O'Neill Global Capstone: Innovative and Participatory Nicholson-Crotty J Policymaking in Armenia
Description: Students will work with one of the United
Nations Development Programs (UNDP) cutting-edge programs,
the Armenia National SDG Innovation Lab, which is a joint venture with the Government of Armenia (GOAM) to mainstream evidence-based policymaking and contribute to the progress toward the UN's Sustainable Development Goals (SDGs). Students will take this full semester course based in Bloomington, then have the option to travel to Yerevan, Armenia during Thanksgiving break to consult in-person with the clients at UNDP and Government of Armenia, meet with key partners, and participate in cultural excursions. Students must apply and be admitted before enrolling. Email Professor Jen Brass (brassj@indiana.edu) and/or the O'Neill International Office (oio@indiana.edu) for more information. Please review more course information and application details https://international.oneill.indiana.edu/bloomington/available-programs/global-capstones/global-capstone-2024-armenia.html Above class requires permission of Department
