<p>We apologize for this late notice about required materials for this class. Your instructor will be teaching via IU eTexts this coming term. That means you will NOT need to purchase materials on your own. The charge for the required materials will soon be posted as a Course Fee of \$39.00 to your Bursar account and then added into your first bill for the term. The materials will be waiting for you before the first day of class in the Canvas class site. Your instructor will have more details about accessing the materials soon. Ideally, we would have preferred to have this notice posted in the Schedule of Classes and registration system, but some delays were beyond our control. Again, our apologies for this late notice. If you have any questions, please contact us at: ehouswor@indiana.edu (Professor Elizabeth Housworth).</p>

 Though a faculty member will be engaged as your instructor, online courses require students to be especially conscientious and responsible about completing assignments and staying on track. Online courses are not easier than residential courses and require just as much time and effort from students. Online participation is required the first week of class. Students may not add the class after the first day of the semester -NO EXCEPTIONS
 Students must have a computer with a working microphone and webcam. A private location and reliable internet connection with a broadband speed of at least 5mbps is required for quizzes and exams.

 This course will have both synchronous (live) and asynchronous (recorded) lectures and activities. The content of this course is highly scaffolded covering only 6 topics, with each topic being very detailed and requiring a foundation of decision modeling in order to successfully determine the proper accounting treatment. Successful instruction often requires more frequent interactions as students progress up the scaffolded content. For this reason, the instructor has asked that students reserve the scheduled class days and times to be available to meet regularly with the class and/or student case groups as necessary. Students will be expected to participate in live sessions 2-3 times per week, and meet regularly with their case groups. Although the class will not meet synchronously on all 4 days per week, reserving the scheduled class hours provides a common time when students should be available to meet without concerns of outside conflicts.

The Federal Policymaking & Special Education short course is intended to provide graduate students with an introduction to becoming effective leaders in education through participation in the public policy making process. In this course, participants will be provided the opportunity to learn and practice the skills needed to be an effective advocate for K-12 students with disabilities and preservice teachers. Public policy impacts the field of education immensely, and graduate students must be prepared to become active participants in the process by utilizing their research and practical experience to advocate on behalf of students with disabilities, their families, and preservice teachers. Through meetings with federal level policymakers, self-advocates, and national organization members, the participants will be engaged in dialogue about key education issues and be provided with the opportunity to find their place within the policymaking process
