	Students will complete material at the beginning of the week and must participate in class meetings on Friday devoted to problem solving This course is designed to be blended/flipped format relative to a traditional class. Students are expected to invest time outside of class meeting to complete all of the recorded lecture videos, lecture quizzes and assignments BEFORE class. During the weekly meeting students will practice application of content through challenging problems. In-class work will be collaborative and inquiry based, involving interpretation of experimental data to deepen understanding of material. In addition, there is a strong emphasis on learning how to learn							
	Please note that above class requires mini quizzes on MONDAYS on the following dates:							
	Monday, Sept 16, Monday, October 7, Monday, October 28, Monday, November 11, Monday, December 9th. Evening Time (s) and Room (s) TBA							
	The final will be on day and time as scheduled by the Registrar.

This course is designed to understand how and why cell biology is key to understanding and unlocking many aspects of human biology and evolution of life in all its forms. There is an emphasis on eukaryotic organisms. We will focus on the structure, function and biosynthesis of cellular membranes and organelles; protein transport and modification in the cell; the cytoskeleton; cell signaling, cell growth, cell death* and how they are impacted in disease states via Bench to Bedside lectures. The focus of the course is to learn cell biology while engaging in core scientific practices essential for a biology major and for success in your future professional goals. For those, whose future goals involves healthcare the premed competencies as defined by American Association of Medical Colleges we will engage in are Scientific Inquiry. Applies knowledge of the scientific process to integrate and synthesize information, solve problems, and formulate research questions and hypotheses; is facile in the language of the sciences and uses it to participate in the discourse of science and explain how scientific knowledge is discovered and validated and Written Communication. Effectively conveys information to others by using written words and sentences. Note: To achieve the objectives above this class uses a flipped format where class time will be used through active learning, learning how to deconstruct a paper using a method called C.R.E.A.T.E (see here: https://iu.mediaspace.kaltura.com/media/t/1_iyonp779), and exploring the connection between Cell Biology and medicine through Bench to Bedside activities. Students will not be getting a traditional lecture in class! You will be expected Above class meets with BIOL-Z 620.

 Above class reserved for Psychological and Brain Sciences
 majors

PSY-P 483 CLINICAL SUPERVISION (3 CR)

8526	RSTR	01:15 P-02:30 P	TR	PY 120A	Schiestl E	30	6	0
------	------	-----------------	----	---------	------------	----	---	---

Student must be pursuing the major or certificate in Clinical Psychology Science.
 For students planning to enroll in X476 Practicum in Psychology, this course should be taken before or concurrently with their practicum experience.
 This course is specifically designed for students interested in completing clinically related practicum, internship, or research experiences during their undergraduate tenure OR students interested in a career related to the treatment or assessment of mental health conditions.
 Students pursuing the major or certificate in Clinical Psychology Science who have successfully completed P318 do NOT need to request permission.
 If you are NOT pursuing the Clinical Psychology Science major or certificate OR have not successfully completed P318, email psyneuro@indiana.edu for permission to add this course. You will receive permission if you meet one of these criteria: 1) you have been accepted into PSY-X476 during the semester you intended to register for the course, (OR) 2) you have spoken with the instructor and received permission.
 Above class reserved for Clinical Psychology Science majors and certificate students

PSY-G 512 APPROACHES WITH ADDICTIONS (3 CR)

33853	RSTR	ARR	ARR	OL ONLINE	Ghosh D	21	2	0
-------	------	-----	-----	-----------	---------	----	---	---

P: Admission to Masters in Mental Health Counseling program
 This is a 100% online delivered class. No on-campus or
 synchronous meetings are required. Students must use their
 University email accounts; it is recommended that students
 check the Canvas course site for announcements even before
 class starts; a high-speed internet connection is recommended
 for easiest access to online materials.
 NOTE: This is offered as part of a collaborative academic
 program. Please consult with your advisor to ensure this
 class will count toward your degree requirements.
 This is an online class taught by IUPUC.
 Above class open to graduates only

VT: SUSTAINABILITY REPTG & ANALYSIS													
CLSD	13914	RSTR	01:15 P-02:30 P	MW	HH	3034	Metz K				0	0	0
			This course is designed to analyze and investigate sustainability reporting topics, including environmental, social, and governance through multiple stakeholder lenses, including present and potential investors, managers, the media, consumers, and jurisdictions. We will explore sustainability reporting as it relates to traditional financial reporting, analyze regulatory requirements around the world, and investigate stakeholder roles in sustainability reporting. To accomplish these goals, we will investigate current and proposed sustainability standards at the general and industry-specific level and evaluate multinational companies sustainability reports.

VT: GAMING FOR RESILIENCE

	36494	01:15 P-02:30 P	TR	HU 217	Clor M Ross K	19	1	0
--	-------	-----------------	----	--------	------------------	----	---	---

Above class meets first eight weeks only
Above class is for Freshmen, Sophomores, Juniors, and Seniors
This course is a great option for students interested in "leveling up" their emotional, mental, social, and physical resilience, as well as those interested in exploring the intersection of technology, gaming, and resilience. In addition to several in-class gaming activities, students will play SuperBetter, an evidence-based online game that is rooted in positive psychology, cognitive behavior therapy, and game theory. No gaming experience necessary. For additional information, please email Anthony Guest-Scott - aguestsc@iu.edu

VT: MEDIA MESSAGES: POWER AND IDEN								
CLSD 14052	ARR	ARR	WB	WEB	Haus K	28	0	0
	What can we learn from TikTok, advertisements, and movies? More broadly, how does the media depict race, gender, class, and sexuality as well as the intersection of these identities? In this course, you will learn how to creatively analyze and critique messages of power, knowledge, and social structures in media. You will also use innovative methods, such as poetry, photography, and collage to explore your identities and challenge taken-for-granted messages about race, gender, class, and sexuality

PROFESSIONAL DEVELOPMENT (442)

EDUC-F 203 TOP EXPLORATION IN EDUCATION (1-3 CR)

VT: SELF-CARE FOR NEW TEACHERS

5828 11:30 A-01:10 P R ED 1002 Levell T 20 10 0

Above class is part of the School of Education's Professional Distinction Series

Using the tools of neuroscience, awareness, and emotional intelligence, this course provides evidence-based practices for beginning teachers growth and development. This course is a rich, intense and highly interactive experience. It makes deep and complex concepts highly practical and accessible.

And the course emphasizes application to each participants real personal and professional challenges

Above class meets first eight weeks only

EDUC-F 203 TOP EXPLORATION IN EDUCATION (1 CR)

VT: MIND-BODY SKILLS GROUP

CLSD 14469 06:20 P-07:50 P T ED 3125 McCord E 13 0 0

TOPIC : Mind-Body Skills Group

In a highly interactive, small-group setting, explore and practice evidence-based mind-body techniques useful for intentionally connecting with your mind and body; regulating your autonomic nervous system(responsible for the "fight or flight" response); and tapping into your internal wisdom. Skills we will explore include: meditation (concentrative, expressive, and mindfulness), visualization, imagery, body scans, and more. No experience with the use of these skills is necessary. Come as you are, ready to learn about how these skills can be a valuable component of your personal wellness and self-care hygiene routine.

Above class meets second eight weeks only

VT: PREPARING FOR LIFE AS A TEACHE

CLSD 10337 05:20 P-06:50 P T ED 1004 Allen C 20 0 0

Above class meets first 4 weeks in person

Above class meets last 4 weeks online

Above class is part of the School of Education's Professional Distinction Series

In this course, students will begin to explore the personal, institutional, political, and cultural forces that impact the lived experience of being a professional teacher. Possible key questions for reflection include: How does self-knowledge help teachers positively shape their professional lives? How does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? How does the current emphasis on standardized testing impact the life of a teacher and how can teachers positively respond to this? What does it mean to be a role model and what are the challenges and opportunities presented by this social role? What does community mean and how are teachers participants in and facilitators of positive community? Exploration of these questions will occur through student centered, hands-on, and interactive classroom activities
 There is a required fee for enrollment in this class: Online Grad Learning Center Fee - Education. Current rates are available at <http://go.iu.edu/BLfees>

A major emphasis in the course will be exploring and preparing applications for various STEM opportunities - research experiences for undergraduates, internships, and more. Over the course of the semester, students will also engage in service at the WonderLab Museum of Science, Health, and Technology. The overall goal of the course is to support students to develop key academic and professional skills necessary for success in college, with a focus on STEM.

	This course will explore the characteristics of today's college student. As a class we will interrogate the following question: Who are today's college students? In order to unpack this question further we will examine how the identities, demographics, and experiences of college students changed over time to create the "contemporary" college student. Additionally, we will seek to understand current trends in higher education and their implications on today's college student. Does not require permission. There is a required fee for enrollment in this class: Online Grad Learning Center Fee - Education. Current rates are available at http://go.iu.edu/BLfees

Above class meets first eight weeks only

Are you dreading an upcoming test? Do you blank out or have trouble focusing every time you take a big exam? Are you frustrated because you consistently find that your scores do not match what you feel you really know? Preparing for an important professional school entrance exam like the MCAT, LSAT, etc.? This course is all about evidence-backed strategies for taking your anxiety level way down for any kind of test, whether that be for professional school entrance exams or finals in your most difficult courses. Our approach centers on how to 1) apply the science of powerful learning to better prepare for important tests; 2) create effective schedules and habits for studying so it sticks; and 3) transform the emotions that come up before, during, and after the test to achieve your performance and professional goals.

	For information regarding this program, please see go.iu.edu/quest									
	A requirement for this course is to attend the Saturday Science Quest program on campus for five consecutive Saturday mornings (8:30 am-12:30 pm approximately). Dates will be determined in August but usually the program runs from early October to mid-November. This program serves as the field experience for this course and participants will be teaching science to children each week as part of the program.

	Teaching Social Studies (3 cr) In this class, students will study marginalized topics in the secondary social studies curriculum with the purpose of planning for more equitable instruction. Black, Indigenous, Asian, Latinx, Women's, and Queer histories and contemporary experiences are centered in both the local and global spheres. Students will develop broad-based knowledge of diverse topics in social studies education and will create a resource bank of instructional materials to use in future classrooms.

This course serves as a basic introduction to applied R programming. The course will cover data structures (e.g., matrices, data frames, lists), basic principles of programming (e.g., control structures like for and if), data analysis (e.g., descriptive statistics, correlations, t-tests), and basic visualization. All needed software can be downloaded for free and does not require any paid subscription. No previous knowledge of R is needed. The final exam will consist of a project. The class meets 100% Online through Synchronous instruction. Please do not consider the course description below as it is not up to date.

30321		11:30 A-12:45 P	MW	GA 1118	Ajelli M	40	14	0

This course serves as a basic introduction to applied R programming. The course will cover data structures (e.g., matrices, data frames, lists), basic principles of programming (e.g., control structures like for and if), data analysis (e.g., descriptive statistics, correlations, t-tests), and basic visualization. All needed software can be downloaded for free and does not require any paid subscription. No previous knowledge of R is needed. The final exam will consist of a project. The class meets 100% Online through Synchronous instruction. Please do not consider the course description below as it is not up to date.

SPH-Q 711 ADVANCED BIOSTAT COMPUTING (3 CR)	37363	RSTR 01:30 P-02:45 P	MW	WB WEB	Li X	10	6	0
This course will cover selected computational techniques useful in advanced statistical applications and statistical research. Topics to be covered include methods for solving linear equations, numerical optimization, numerical integration, Expectation-Maximization (EM) algorithm, Monte Carlo method, Bayesian methods, bootstrap methods and stochastic search algorithms. SPH-Q 651 and SPH-Q652 are prerequisites. Instructor permission needed if prerequisites are not met. Dr. Xiaochun Li (xiaochun@iu.edu) This course meets with PBHL-B 616, an in-person course in Indianapolis. This SPH-Q 711 course will join virtually during the class time, with additional online work at times.

Above class is a temporary holding section for unassigned major performance study. Students who register by the first Tuesday of the term will be administratively reassigned to an appropriate permanent class by the end of the first week. In addition to registering for a holding section, students should also register for the holding master class section under Abra Bush's name (MUS-I 300 for undergraduate students, or MUS-I 500 for graduate students). Students who register in the Dean's holding section master class will also be administratively reassigned to the appropriate studio master class, if available. Above class requires permission of Department

		TOPIC: O'Neill Global Capstone: Innovative and Participatory Policymaking in Armenia										

Description: Students will work with one of the United Nations Development Programs (UNDP) cutting-edge programs, the Armenia National SDG Innovation Lab, which is a joint venture with the Government of Armenia (GOAM) to mainstream evidence-based policymaking and contribute to the progress toward the UN's Sustainable Development Goals (SDGs). Students will take this full semester course based in Bloomington, then have the option to travel to Yerevan, Armenia during Thanksgiving break to consult in-person with the clients at UNDP and Government of Armenia, meet with key partners, and participate in cultural excursions. Students must apply and be admitted before enrolling. Email Professor Jen Brass (brassj@indiana.edu) and/or the O'Neill International Office (oio@indiana.edu) for more information. Please review more course information and application details [here](https://international.oneill.indiana.edu/bloomington/available-programs/global-capstones/global-capstone-2024-armenia.html):
